

'Contact'

U.S.A.

PREFACE.....

We want to especially thank Ed Taylor for his help in the mimeographing each month, for without his little old machine and the time he donates this newsletter just would not be. And Nola Ramsey, who has made such a wonderful improvement in the entire thing with her tremendous sketches, and to Art Davis with his contribution of sometimes rather unorthodox ideas, which have proven out time and again, and brought some extremely interesting situations to light. Many of these incidents we will include from time to time in the pages of the newsletter. Last but not least..a special thanks to ALL of you for your faith, your ideas, your sighting reports and your patience. Thanks for your co-operation in every way...and we hope that with each succeeding month this Newsletter will become more and more YOUR letter and merely our particular care.

Included in this issue will be a membership form which we are hoping those of you who have not renewed your last years membership will take full advantage of and do so immediately. Our numbers count in members stands now at 172, but perhaps easily seventy or so of you are those who had become members when Mr Karr was handling CONTACT, U S A and so if you do not renew your membership we will be hard put this coming twelve months to edit and publish a newsletter.

That 1971 might well be an extraordinary year for CONTACT, we are personally asking each of you to become acquainted with your local police forces, your news media, radio and TV media and to see that each of these receives CONTACT, with your own addition in local reports. We hope many of you will volunteer in your immediate area to lecture on UFO...you cannot become a lecturer unless you start, you know. AND that ALL of you follow your hunches in the days to come, because hunches are a pretty valid and important of this entire subject.

ALSO...if you have NOT sent for John Keels 'Anomaly'..by all means DO. You are missing some vital and important information. Many of you commented on the CBS pages in last issue..well..write your comments to Mr Gamba et...he would enjoy hearing them and you can pursue the entire idea further with communication from him..he knows his onions !!!

## SIGHTING REPORTS

September 28-after midnight Gnadenhutten....woman reported she could not sleep , was restless and discomfited, finally while trying to go to sleep she became aware of a high pitched whining noise similar to noises heard on TV for UFO movies..particularly the 'Invaders' , humming like it had settled to the ground. She got up, looked around, as best she could, but saw nothing. She was too frightened to go outside.

\*\*\*\*\*

This report is of interest to us, because, altho no visible sighting was reported, yet types of this kind are becoming more frequent. Comparison to the 'Invader' bit is quite common, BUT even more frequent are the 'physical' effects which occur to people AFTER such an incident.

For example...in a large number of reports similar to this which occurred just south of Akron, immediately afterward we were deluged with incidents of people discovering round, bruise marks on their thighs, abdomen, hips, upper arms and even on the abdomen. In ALL cases which we personally observed, a round pin-hole spot appeared in the center of the bruise, making it very similar to a shot bruise...????? We have nothing to say...we are just commenting...we would like to hear from YOU as to what YOU think.

!!!!!!!!!!!!!!!!!!!!!!!!!!!!

June 2nd..after midnight..travelling westward.. A young couple wrote their parents and inlaws of having a visitor with them as they travelled across the nations highways. On June 2nd specifically, they observed a beautiful large pearl like object hovering in the sky near them for about 3 hours. The moon was also shining brilliantly, so they were not confusing it with that body. All of a sudden it moved away from them quite rapidly.

Bot above reports contributee by Nola Ramsey.

\*\*\*\*\*

August 27th, time unrecorded, Easthampton , Mass...My fiance and I were sitting outside talking and looking up toward the sky when we saw what would have been a plane except it was without red or green lights. It was travelling at a rapid speed and it made a V pattern, going from NW to S to NE. The thing really amazed me in the pattern it made, going from N to S and then making a sharp angle heading NE...Burgess

October 6th..8:45 P M..Kent, Ohio..Mr and Mrs Norman Johnson, on their way home from Akron, about two miles outside Kent, noted a huge blue ball of light (size of a nickel at arms length) arc earthward..moments later, another blue ball of light appeared in the sky, in the same location, a little to the southeast of them, only this time it was motionless.They watched it, waiting for it to descend to the earth, but instead it began to move ahead of the car and to pace it..It then went with them up Water Street,but when they turned into Dodge, it continued eastward. Mr Johnson decided to go to the Plaza, for a pack of cigarettes, which is southwest from his locatinn at that time. The blue light reversed its direction and proceeded to pace the car again until they reached the Plaza, where it hung motionless in the sky. They were in the store approximately fifteen minutes, but upon returning to the car, the light had disappeared.However, as they began to proceed home, it reappeared to the southeast and again kept pace with their car until they arrived home. Mrs Johnson raced inside to wake her children, but by the time she had returned outside it was gone. She commented the only 'feeling' she had was one of extreme for just being alive.

\*\*\*\*\*

October 6 9:00 P M..West Akron ...Dollie Hansen was crossing the street to her neighbors when she looked up and saw an object easily as large as her spray can of deoderant moving slowly along in the sky to the sourtheast.It was brilliant red all over, with an even brighter red light travelling around the length of the object, from tip to tip,..making a sort of wave of more brilliant orange red with each circular path it travelled around the object.She thought at first it might have been the Gpodyear Blimp, but decided against it as it was large enuff to have made some noise if it were and she noted no noise, plus the entire object seemed to glow reddish bright from inside out.

\*\*\*\*\*

October 8-70 Northampton..8:30 P--M ...several youngsters, 8, 10 and 14 respectively, saw in the southeastern sky a huge blue flaming V shaped object, with bright red outlines and tip with what appeared to be reddish feathery effects of possibly flames. shotting out from upper areas on the outside and ends of the V, on the inside.

is little doubt but that many people DID see this star...but numbers of other people saw something else. At 2:30-A-M we were wakened by phone calls of persons 'seeing' a bright orange-object about the size of a baseball in the northeast, low on the horizon. We observed this same object and it did NOT move during the ensuing hours, altho positions stars DID move along their appointed courses. The same orange-object was still visible when Venus began to make her appearance..slightly below and to the north of Venus. This star finally departed rapidly to the north-east when Venus reached about a 50 degree angle in the sky.

\*\*\*\*\*

December 3rd...individual reported seeing a military plane just off 619 where object was believed by some to have landed. Plane was very low, possibly 250 feet altitude, continually circling area taking pictures, and using some other kind of device that seemed to emit loud clicking noises.???

\*\*\*\*\*

December 3rd... other calls followed in this manner...

people reported a frightened feeling, not as of physical violence, but as some great happening was about to occur. They were not sure they were ready for it. Compared their feeling to a soldier going into battle for his first real combat action.

At 3 A M on December 3rd, a Northamptonite called to say he had been awakened from a sound sleep, knot in stomach, as tho afraid. Went outside, two huge lights at tree-top level like car headlights, then blinked out.

3 A. M..Another Northamptonite reported they awoke because of intense bright light. Thought it was lightening out. No lightening, but a bright luminous cast to everything outside. No moon was seen however. Nothing was visible to make the unusual light.

\*\*\*\*\*

January 7-71 8:30 P M..Killian Rd...object observed larger than a foot-ball, could see port-holes. Shaped like a top. Solid red when first seen, Stopped, stood motionless above field on opposite side of 619. Red then completely disappeared and was replaced by 6 red circles, seemingly forming a perfect triangle, with apex up.

January 5-71 9 P M....south of Killian Rd..amber colored object, 2 feet long, bright amber, going N E. All light around the object..sort of a hazy brightness.

\*\*\*\*\*

October 9-70 midnight..Camp Butler .....Boy Scouts on camp-out.Steve Randolph , Asst. Scout Master, observed thru telescope, four silver disks crossing face of moon.Each one had a bright orange spot in center. Some cloud cover, clouds going west, silver disks heading east. In formation, cluster of four.Moon hazed out with spotty cloud cover, apparently above it, but below the moon, passed into clear area and disappeared into heavier cloud banks. About size of little fingernail held at arms length, seen thru scope . ( between spotty cloud cover and apparently above it ...objects passed thru and were visible thru hazy cover)

\*\*\*\*\*

December 13-70...Mrs Vellaca, Killian Rd, had unusual noises and evidences of something in bedroom.

December 14th -70 ..same as above...Mrs Vellaca was asleep, Became very, very cold, like packed in ice. FELT someone leaning over her. Went back to sleep. Heard a noise like a loud gong. Could see nothing. Could hear someone walking across the living room. Stood in middle of living room floor, heard walking, saw nothing.

December 16...same as above...same routine as above. Was definitely of the impression that whatever was there...was NOT exactly friendly.

December 1st.. Teresa R saw bright star which got larger, then smaller, then larger, moving directly to the south. Object was as large as a nickel in the sky. Teresa R thought in her mind...'Wish more people would see you' heard..or felt she heard ' Your wish will be granted..and more people WILL'

\*\*\*\*\*

November 31-70 6 P M...Teresa R saw star-like object moving along sky with no determined course, moving all over the sky, and becoming like a yo-yo.She experienced a tight band about her forehead. (This is reported many times..it also occurs often in telepathy experiments)

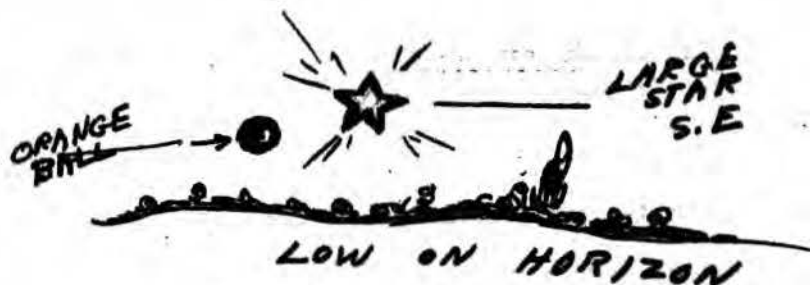

\*\*\*\*\*

November 29th..5:30 A M.....Stever Randolph, passenger in car-load of people travelling north on Rt '8 between Canton and Akron, saw to the north-east, 20 luminous blue-white disk shaped lights, moving at high speed, travelling north.

\*\*\*\*\*

December 3rd...Many people called radio station WCUE around 5 P M, concerning a large star to the south-east, hanging over Uniontown. It was decided the star-like object was the morning star Venus. It is obvious that Venus was out in all its glory and there

December 3-70 flurry of reports

Comments made by callers to WCUE on this morning concerning this sighting followed along a rather interesting pattern. The morning star was unusually brilliant and beautiful. People who saw it, either simply because they were out at that time of day, or those who saw it because they heard others talking about it on the radion station, seemed to have a rather mystic and awesome feeling about it. One women said ' I don't know what anyone else is going to do, but I am going to pray.' Another said.. "To me, at this time of year, and with its unusual clarity and beauty, I am reminded of the CHRIST child and the star that guided the Wise Men' Others said it gave them a feeling of expectation ..as tho something great were about to occur..

Is it not possible that something GREAT did occur? Man, being as he is, very rarely SEES unless he looks backwards. And then, the configuration of 4 planets and our moon Christmas Morn, making yet a more remarkable Star-LIGHT. The first in 1,977 years...but 33 years short of 2,000 ,which is the period of time given as a Minor Cycle by the Space People to many contactees.

Furthermore, if one is to go by the record, Jesus was born March 16, however...the CHRIST was born in Jesus on Christmas 25...so say some mystical records.

???????

????

Report from Pauline Dickenson

Friday November 20-1970 I was travelling south on Bobby Jones Expressway to my right (west)-I watched a large baby-blue cloud with red tips to what looked like five fingers hanging down. The red ran up from the tips of the fingers like veins. It started with a burst of the cloud, and the fingers dropped down, the red formed on the ends and the veins started running up the fingers. There were two bright objects came of what would signify the Palm One travelling southeast and the other one travelling East. I had stopped and got out of the auto. cars kept going by as if nothing were happening. I thought for awhile it was just me. With the beauty of the colors I figured that was enough to stop people. It was a very clear night, no other clouds in the sky and the cloud looked very low.

The News media was flooded with reports which via phone people called in and gave their impressions over the air.

I do not know if any other parts of the south east or southwest reported the sighting but it should have been seen in Floriday, Alabama, LA, Ark and parts of town. If it was residue from the rocket from Eglin Air Force Base, how they account for the two moving objects going in different directions I do not know.

Our local reports the next day was that the cloud was located 199 miles over the Gulf heading west and travelling at a rate of speed would put it about 100 miles up. We have watched for signs of rocket take-offs for years from our Augusta location and up until this year had never been able to see anything. Could it be a new kind of fuel ?? And since when do rockets leave vapor trails after entering the stratosphere ??

Since vapor trail is left as object goes, how come this one split into five parts and dropped down ? How come the two objects that moved out of the cloud left no vapor trail ?

As you have probably gathered by now I have some doubt as to the public explanation.

Altho I do not doubt that Eglin sent out a space probe.

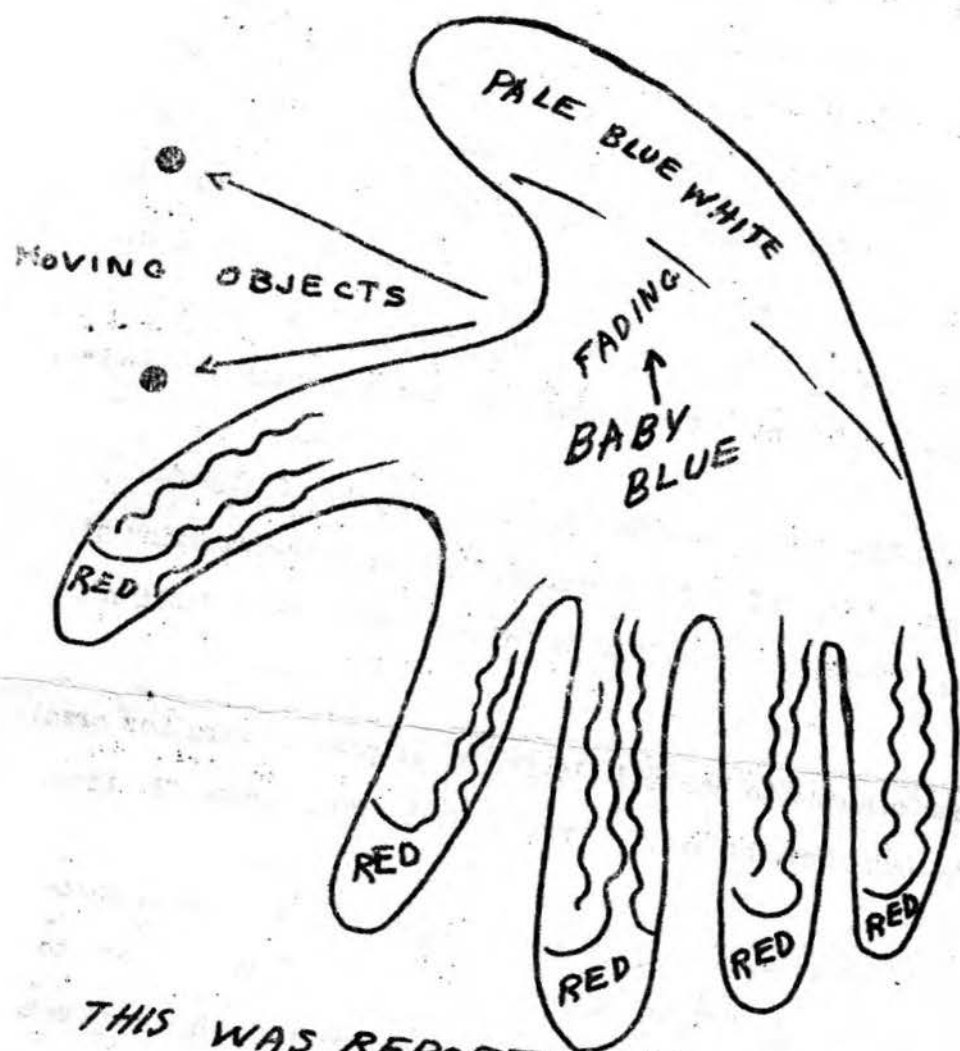

### SPECIAL REPORT

Around spring of 1960 while doing some personal running down of UFO reports, we heard from a Mrs. Ronald Belvin, at that time living in the Ellen district just southeast of Akron, Ohio. She called to say she had been observing a large orange-red sphere of light hovering just at tree-top level to the east of her house for some period of time. Its appearance was not constant, but its size was approximately the same, and on several occasions she had noted a long sweeping beam of light arc down from the object to apparently 'center' beneath her house, with a sort of singing sensation. In other words she felt the house 'sing' all over when the beam of light beamed beneath it. This house did not have a basement but was housed on a cement slab foundation.

Over a period of about a month, Mrs. Belvin reported to us a variety of objects, and also an assortment of odors noted, of odd sensations...such as hair-prickling at neck nape, slight dizziness and temporary inability to balance, the eerie feeling that someone was present with her when no one was visible, etc. Many of her sightings were validated by other persons unknown to her and living at or passing thru her area. The incident which we want to put here, however, has to deal with a specific time.

September 1966 Mrs. Belvin called us considerably disturbed. Her husband was a post-office employee who worked nights and it was around ten P.M. She had quite a story to relate. She said she had been in the bathroom, washing up before getting her husband's dinner and packing his lunch and as she stood up she glanced into the mirror above the wash-basin. She was shocked to see, leaning against the door-jamb of the room opposite the bathroom, a tall, slender, long wavy black haired young man, his arms folded across his chest, smiling at her in a sort of tolerant manner. She observed he had some sort of soft, drapery material, comparable to jersey, in a dull grey color, for a blouse effect. She recalled later that it seemed to have tight long sleeves and a sort of round neckling. With absolute fear she turned around to face her viewer...only to discover he was not there. For a moment she was confused, then she went to the kitchen to think about what had occurred, and about that time her husband walked into the room, put his arm around her shoulders, at which point Mrs. Belvin broke down com-

THIS WAS REPORTED AS A ROCKET FROM  
EZLAN AIR FORCE BASE

lately in deep uncontrollable sobs. Her husband, understandably, became un-nerved and stated flatly that her interest in UFO was the cause of her seeming imbalance and she needed to see a psychiatrist. He advised her to commit herself to Fallsview, a Mental Health Hospital. At this point she called us, asking her husband to allay his action until he talked to us. She then told him what had occurred. His understanding was not too commendable, but this is par for the course.

Fortunately, Mr. and Mrs. Arthur Davis were at my house about another matter, and had with them their Geiger Counter. We decided to try on a long chance taking it out and seeing if it might possibly pick up anything unusual. When we arrived, Art had checked the Counter to be certain it was in working order and as we got out of the car and walked up the lawn, it ticked rhythmically along. When we reached the stoop of the back door, and went up the several steps to her door, the counter suddenly and unexplainably shot to the highest point on its register..500. We stood still for a moment and then Mrs. Belvin opened the door and all stepped inside. Once inside, the counter needle went immediately back to its normal staccato rhythm. Art then opened the door and went back out on the stoop.. only to have the same rapid chatter resume and the needle to move without hesitation to the highest possible register on the counter. Then it sagged down gradually as tho the object which made it respond was moving away. Art moved into the driveway to follow whatever it was, and picked up a faster beat as he reached about seventy-five feet from the house.

Behind the Belvin home was an empty lot pretty well grown up with grass and weeds. The lot was approximately an acre in size. Art followed as best he could the direction of the high count and seemed to weave a path of leisurely walking thru the grass and back to the house, stopping at the side of the house. Mrs. Belvin instantly gasped.. 'But that is my daughters room..and that is where I saw that man..in the doorway to her room' We then went inside. No additional increase in the natural pick-up of the counter was observed as we moved thru the house. However, when we returned to the living room to discuss her encounter. Art sat the Counter on the coffee table while we talked. Suddenly a brilliant flash of light was seen on the living room wall and the counter needle moved instantly upward and began a rapid rhythm. Mr. Belvin was nonplussed. We con-

times listening to his wife's story. When she had finished we all note the needle went slowly down to normal. Her husband--is NOT commit her...the action of the Geiger Counter, for that time at least, was sufficient to convince him something out of the ordinary had definitely occurred.

After this incident Mrs. Belvin did not, to our knowledge, have many other unusual incidents, ; but she continued to have sightings from time to time. We checked to see if had wide peripheral vision, on advice from another friend that this might account for her being able to view the fellow in the doorway. She did have wide vision. The friend who submitted this information, Fred Hartline, then proffered the possibility that perhaps her wide vision, when looking into the mirror, acted like a completed circuit allowing her to see the person behind her, which she 'erased' when she turned around and looked directly at the spot where he stood, because she was no longer seeing in the same capacity. We then checked with another friend an obstetrician, and he said this was a possibility. He referred us to the Moire Patterns used by psychiatrist to check out certain conditions in patients, and said that even as in these, the pattern of light and wave-lengths of color, or vibration, was responsible for what each individual saw. In this woman's case, it was possible that with the extended vision created by the mirror she had seen the man with a different wave length of light radiations than was visible to her when she swung around. I, personally, do not fully understand the totality of these ponderings and offerings, but I DO know that Mrs. Belvin apparently saw something, and I DO know that the Geiger Counter re-acted to 'something'..whatever that something was. Also, I DO know that we had many similar reports falling into the same classification, over the ensuing months. We hope to include each and every one in these pages, one at a time, for your reading and thinking. We do not KNOW where this is at..but we know that a pattern IS being formed...and from the accumulation of ALL reports..believable or not, the final answer will undoubtedly be arrived at.

## RULES for 'CONTACT' of UFO and / or Occupants

by Earl Gambrel

Should your encounter after-dark, which most landings are, then the lucky-observer seeing the craft coming-in, should stop in their tracks, stand-fast and watch the Sky-craft coming down. Observe its flight pattern. Should it descend with out a flutter or falling leaf motion, then this means it must stop and hover about 50 feet off the ground. When it does this, and should you be at least 300 feet from it, stand still, and place the right hand over the forehead, palm toward the craft with the fingers extended together, hold the hand just above the eyes, watch for craft to extend a long rod toward the ground from the lower center of craft. Watch for the rod and when seen, drop your hand before the eyes, and hold in this position until heat is felt on the palm. Then you can drop your hand as danger of burning your eyes is over-come. Reason for all this is evident, when the fact is known, that in this case the Skycraft must first discharge about a million volts of electricity into the ground, which is very like a bolt of lightening discharging into the earth, after which time the craft can lower the landing gear, and set down safely. Do not approach the craft at this time, as the Crew must wait for the ground to cool first before they can step down into contact with earth.

Next, they will open a hatch in the lower center, a blue light will be seen below and coming from inside the craft, as you will then observe a metal ladder lowered, but not contacting the ground. Should you eye-ball the craft as a 36 foot in diameter job, this means it is a craft of the Skycraft Patrol which patrol the skies above the earth. And that they are sitting the craft down at this time to either investigate something on the ground, or maby just to cork-off for a rest period. In either case, the Capt. or skipper of the ship will be the first to come down the ladder from the craft. He will stop at the bottom of the ladder, then jump to the ground, thus breaking contact with the craft before touching ground. He will then stand in the burned or charred area until the second in command joins him, then both will stand on that spot until they get their land-legs and adjust to our atmosphere and pull. They may then move toward you, reason being that there is still a third man in the craft which is the security man and he has an Electron-Ray weapon aimed at you, at a spot on your

person, between and just above the line of the Ears. The Capt, and second in Command, may move to a spot halfway from the ship to where you are, they will then stop, at which time you may walk toward them to a distance of ten feet from them, and stop again. At this time the Capt will check out your thoughts and should he find you a friend, then he will extend a hand toward you in token of meeting a friend. You, too should extend your hand, and he will place his palm against yours, but will not grip your hand as we do in greeting. Instead, while the palms are together he will check your heart beat with his index finger and should it be running wild, then he will program your brain to relax and enjoy meeting some new friends. At this stage of the meeting you will not need to speak with the voice, as they will program your brain to where you will be able to communicate Mind to Mind.

Also at this time, ask in mind that you be able to retain memory of this meeting, and that they grant you the honor of becoming a future Contact with them, that you may learn more and be able to serve the human race at a higher station in life. AND, should your request be granted, play it cool, don't broadcast it all over the place, as no one would believe you anyway, and besides that it would be a waste of time, your gain being only extra jaw exercise.

Should you have wondered just what the third man of the crew was doing all this time, he was just waiting for the Capt to give the OK on your person, and should he have NOT given it, then you would have awakened laying on the ground, wondering how you got there, remembering nothing that occurred. But you would note a small swollen spot just between the eyes, and speculate how it got there and when. Also you might see a burned spot or charred area near you, but you would not know anything about it either. And, in this case, you would have had no meeting between you and the Skycraft People of the Skycraft Patrol, not even dream of such a thing, ever.

\*\*\*\*\*

There will be those of you who will not quite buy this advice, but then there will be others who HAVE had experiences very similar who will recognize the truth and validity of Gambrels words. How many have come close, but phased out??? And, how many ARE contacts, and are totally clouse-mouthed about it??? As we have observed in other affairs, it is usually the guy who talks the most who really has the least to say...and says it the most.

Report from Ralph Phillips.

There is an extreme MAXIMUM DANGER TRIPLE RED ALERT now flying. It is a culmination of the following events below:

1. 1/2 megaton H-bomb in atmosphere over China 15/Oct. 70
2. 6 megaton H-bomb underground in Russia 15/Oct 70
3. 1 megaton H-bomb underground in Nevada 15/Oct 70
4. Sirius Super-Nova 18/Aug 70
5. Pakistan Tragedy 15/18-70
6. 2 1/2 megaton bomb underground in Russia 16/Dec 70
7. 4.3 megaton H-bomb underground in Nevada 16/Dec 70
8. Inferior Conjunction of 4 planets and our moon at 5 5 A M. CSA time,

Christmas morning 1970. First of its kind since 730 (1,977 years ago)

Within the next days an extreme maximum danger triple red alert will be in effect and may involve the following occurrences:

- A. Very Severe weather ALL over the Planet Earth
- B. Very strong earthquakes in ALL major and secondary fault zones
- C. Possible volcanic eruptions in both active and inactive continents
- D. Severe tidal waves on major coast lines of several large continents
- E. Severe electromagnetic disturbances affecting the communications media, i.e. radio, TV, electric, ham and C.B etc
- F. Adverse reactions in animals, birds and mammals
- G. Adverse reactions in many humans, causing them to commit acts they themselves will not be able to account for, i.e. rioting, assassinations, murders etc.
- H. Further disruption of our Van Allen Radiation Belt, (which we have already damaged from atmospheric nuclear testing)

The Inferior Conjunction on Christmas Morning Involved the following planets in our Solar System

- |            |                 |
|------------|-----------------|
| 1. Mars    | 4. Saturn       |
| 2. Venus   | 5. Jupiter      |
| 3. Neptune | 6. Earth's Moon |

All planets were within 10 degrees of each other and at their closet point to Earth and Earth's Moon for a period of 24 hours. Increase in UFO activity to follow..earthwise

Other UFO Groups you might wish to correspond with... Their material is of the best.

## MASTER SPEAKS...

The MASTER said..!Come Unto Me'...and yet who came?? The young in heart..the untried and untested..the boy with long and flowing hair..the girl with tattered blue jeans and glowing eyes..THEY came..and listened..and began to move..in restless search for that which was their birthright..the high and misty mounts, rolling meadows, lush green valleys, singing silver streams, dark, dank, dense clusters of austere sentinels of the forests, days of golden glories and nights of star-strung velvet skies. THEY came..and walked..reaching for HIS hand..and yet none understood..none knew..that these so young, so yet unfettered with a worlds weighty gold, who mouthed words unfit for older ears, who wove the bonds of friendship firm, yet loosely knit, who turned away from Esau's pot, and chose instead the path of starry upward swinging joys, were they who answered ' Yes , Master, here am I'...

So young they seemed, so unfit to receive so great a gift, nor worthy of its giving, and yet..THEY were the ones who answered when the call went forth...to cast aside the yoke of slavery..to stir and rise and become the Sons of Freedom once again, and the they came not by paths already clearly cut, nor roads already laid by those who came before, but up the craggy side of towering peaks, and thru muddy rivers.Tho they seemed but wandering aimless uncouth children, yet..when the Master looked within their eyes, HE saw the SUNS reflection there, when HE gazed to the depths of their hearts, HE saw the love that smoldered there, and when he looked upon their souls, HE saw the beauty of their beings..HE saw no mold or grime or tannish, but rather bright and glistening stars..ready and willing to become tomrrows Suns...and so he touched their hands and said "Come' and they came..t en million count..the youth of all the Earth..they lifted up their eyes, their hearts, their inward parts..and they strode in full awareness, from deepest night..into the fullness of a risen SUN..where man is not only brother to man, but kin to all of life, where boundaries cease and flowing rivers thrive..where son transforms to SUN ..and there is only ONE

## A MESSAGE FROM THE INTERNATIONAL CHAIRMAN

"A new world-wide movement has just been born, geared to the space age we are now entering. Young people are thrilled with the exploits of both the American and Russian astronauts. An ever-increasing number of people wonder whether there is a two-way traffic. In short, that this planet is being visited by inhabitants of other worlds.

"Dr. Harlow Shapley, the doyen of American astronomers, Sir Bernard Lovell, director of the Jodrell Bank radio telescope. Professor Fred Hoyle, Plumian Professor of Astronomy at Cambridge University. These are some of the leading scientists who agree in their opinion that millions of planets in the Galaxy - the Milky Way - may be inhabited.

"We have only had our technology for about two hundred years; but supposing that other planets in the galaxy have had theirs for thousands, maybe millions of years, then anything could be possible.

"If you are interested in these ideals then you should join CONTACT, U.S.A. You will enjoy the companionship of other minds equally enthused with the new space age.

"We live today on the threshold of great events; without any doubt at all the coming years will be the most exciting period in the history of mankind.

The Hon. Brinsley Le Poer Trench,  
Chairman of the International Committee.

### AIMS

The Aim of Contact, U.S.A. is to examine and present the evidence for U.F.O.'s to mankind and foster friendship and better understanding of visitors from other worlds.

### MEMBERSHIP

Membership is open to all persons supporting the aim of Contact, U.S.A., and who complete an application form. Members receive a membership card and a regular newsletter containing the latest news, selected sighting reports, articles, book reviews, cuttings, quotes and letters.

In U.S.A., the annual subscription is \$5.00.

## MEMBERSHIP APPLICATION FORM

NAME (Block capitals please) Mr./Mrs./Miss \_\_\_\_\_

ADDRESS (Block capitals please) \_\_\_\_\_

Optional information: Phone No. \_\_\_\_\_ Occupation \_\_\_\_\_ Age † \_\_\_\_\_

† The written consent of the parent or guardian is required for applicants under 16

I enclose \$5.00 as my subscription for one year

I enclose a donation of \_\_\_\_\_ Total enclosed \_\_\_\_\_

Date \_\_\_\_\_ Signature \_\_\_\_\_

\*Remittance should be in the form of a cheque/postal order/money order and made payable to:

PLEASE RETURN THIS FORM WITH REMITTANCE AND STAMPED ADDRESSED ENVELOPE TO:

Please see over.....

The forming of International Sky Scouts has meant that a UFO sighting in any part of the world can receive on-the-spot investigation then be evaluated and indexed.

Speed is essential and both members of the public and Sky Scouts are asked to inform the Sky Scouts Research Officer: Brian Gill, 33 Grovewood Avenue, Eastwood, Leigh-on-Sea, Essex. Tel: 0702 525753, immediately they hear of a UFO report eg. from radio, newspapers, magazines, friends etc. Please send all cuttings of both home and overseas reports to the Association as they are valuable and may assist research.

## OBJECTIVES

Sky Scouts are united by a bond of mutual friendship and realisation that people exist on other planets in this galaxy and in the millions of galaxies which comprise the Universe. Sky Scouts are interested in a mutual exchange of information with other interested groups or persons. Sky Scouts will learn that space craft have been visiting this planet for thousands of years, and recorded sightings have occurred all over the world. A large number of these reports come from scientists, pilots, police, coastguards, military and naval personnel and people from every walk of life.

## HISTORICAL NOTES

The expression "Flying Saucer" was coined by the press after an American businessman, Kenneth Arnold, reported seeing nine gleaming discs, "skipping like saucers across water". Arnold was flying near Mt. Rainer in the State of Washington, U.S.A. on June 24th, 1947, when he saw the nine objects flying in echelon between the snowy mountain peaks, at an estimated 1,200 to 1,700 m.p.h.

There are numerous historical references to U.F.O's. (eg. sun discs, fiery chariots, pillars of fire, flaming wheels, flying scrolls etc.) which tally with present day sightings. Today there are over 100,000 sightings on record and every country in the world has its quota. Even more notable are hundreds of recorded alleged sightings of, or contact with the UFOs' occupants.

## DEFINITION OF UFO's

U.F.O.s - Unidentified Flying Objects which are popularly known as "Flying Saucers" are mysterious aerial objects, neither man made nor known natural phenomena.

COMPLETION OF THIS PART IS OPTIONAL BUT WOULD BE OF CONSIDERABLE ASSISTANCE

### ARE YOU INTERESTED IN:

- (1) RESEARCH, INDEXING, REPORT/PHOTOGRAPHIC/GEOGRAPHICAL ANALYSIS?
- (2) HELPING WITH ADMINISTRATION OR FORMING A LOCAL BRANCH OF THE ASSOCIATION?
- (3) TYPING, EDITING REPORTS, SUMMARISING NEWS, WRITING ARTICLES?
- (4) TRANSLATING FOREIGN LANGUAGE REPORTS/ARTICLES/LETTERS?
- (5) INVESTIGATION OF U.F.O. REPORTS BY INTERVIEWING EYE-WITNESSES?
- (6) ORGANISED SKYWATCHING?
- (7) GIVING LECTURES?
- (8) ANY OTHER ACTIVITIES?
- (9) DO YOU WISH TO BE PUT IN TOUCH WITH OTHER LOCAL MEMBERS?
- (10) DO YOU WISH TO BE CONTACTED IN THE EVENT OF A U.F.O. ALERT?
- (11) DO YOU THINK YOU HAVE EVER SEEN A U.F.O. IF SO PLEASE ENCLOSE DETAILS.
- (12) DO YOU HAVE ANY USEFUL EQUIPMENT\*/EXPERIENCE/QUALIFICATIONS?

\*E.G. Typewriter, Duplicator, Photo-Copier, Tape recorder, binoculars, Optical Instruments, Geiger-Counter, Measuring Instruments etc.
